HOT, HOTTER, HOTTEST. - DRY DRYER, DRYEST.—We can almost smell brinstone in the air. Not a drop of rain for nearly two weeks. Growing crops suffering terribly hereabouts for a little rain. A little rain; Oh! a little rain, we don't think, just now, that we would object to a Noah-ark deluge.

Our readers will please excure the dearth of Editorial-matter in this issue. What has become of our Associates we are at a loss to say, without the extreme dry and hot weather has placed them in the situation of the opium-eating Chinese while under the influence of their favorite drug.

BABY MIMICRY. - A friend was telling us the other day of an amusing incident that happened under his observation, which we give our readers: A little daughter of his, Fanny, had been to a "christianing" and a day or two after sitting in the piazza, playing with her doll baby, she concluded she would baptize her-so getting a cup of water she made her doll kneel down, and dropping a few drops of water, she lisped-"Ma-ey I badize ee name ord-an an so forth, git ир; а-шеп."

THE UNIVERSE .- The second volume of the Chicagoan commences with the title changed to The Universe, the first number of which is received. It is enlorged to an eight-page sheet, and conthins the commonwement of a story by Mrs. Corbin, entitled, "Married, or a Woman's Deception;" a capital story by Mrs. Jennie T. Hazen,-"Daisy, or the Married Man's Stery," and a great variety of other matter. Among the principal articles is one on "Spiritualism a Moral and Social Necessity," by Robert Dale Owen, and many on various phases of the "Woman Question," and Spiriteralism. Published weekly, at \$2.50 per year, by H. N. F. Lewis, 143 Madison Street, Chicago.

The following circular has been issued by Hon. C. P. Leslie, Land Commissioner, to the Sheriffs of the various Counties throughout the State:

To the Sheriff of - County: Sin :- You are hereby requested to report to this office all lands in your County purchased by the State at tax sales, date of purchase, by whom occupied, under what authority the party holds possession, whether under cultivation or not, and what disposition should be made of all such lands to secure the greatest bonefit to the State. A full and early report, together with your recommendation and suggestions, and a statement of your expenses incurred is

Our friends throughout the Count will confer a special favor on us and th readers of the NEWS, by informing us of any matters of general interest which may transpire in their respective neighborhoods. Furnish the facts in each case as briefly as possible, and we will put the information in a shape suifable for publication. The names of persons giving us information must accompany their communications; not for publication, but as an evidence of good faith on the part of the writer.

The Ordinance promulgated by the Town Council in our last issue went into effect on Thursday 15th instant. Our friends in the country had better see to , and hereafter when you kill a beef oring the Head with you in good condiion, so as the marks of the beef can be identified, and register the same with the Clerk of Council. This is just the kind of an Ordinance we have needed for some time, and we hope our worthy Council will see that it is strictly en forced. Cattle won't "come up" missing o often then.

THE NEWSPAPER .- The reading of good and well conducted newspaper even for the space of a quarter of a year, rings more sound instruction and leaves a better impression than would be ac quired probably at the best school in twelve months. Talk to the member of a family who read the papers, and compare their information with those who do not. The difference is beyond com-

In Switlerland they give salt to cattle n the form of little blocks compo nine-tenths salt and one-tenth potter's clay. These blocks are placed in boxes at the foot of the manger, and within easy reach of the animal, which take what instinct prompts and no more. Some use them in the pasture in the same manner, when the animals will lick them at their pleasure. It is well known that salt administered in this economical manner will produce excellent results on the horse, cow and skeep.

How to Extinguish FIRE IN CHIMNEY .- Shut the door of the apartment to prevent a current of air, and throw a few handfuls of common salt non the fire, which will immediately xtinguish it. It neither causes smoke or precipitates the soot. The philosophy of this is, that in the process of burning the salt, muriatic gas is evolved; which is an extinguisher of fire.

REVIVING DROWNING PERSONS .-As this is the season for general bathing we give the following recipe :

If the person drowned be a politician, whisper in his car that he has just been appointed to a fat office.

If a married woman, softly tell

pectorant in the house. It is a certain vited to visit the Farm at the Etiwan and pleasant cure for Croup, Coughs,
